

Vibrant Gratitude Wisdom

*A sustainable world means working together to create prosperity for all.
-Jacqueline Novogratz*

One of the most common struggles that we hear about from our [global community of more than 50,000 women](#) is financial struggle. Women, who are single mothers, or working several jobs to make ends meet. Women who rely (or have relied) on a husband/ father/ man to support them and don't have a known avenue to create financial abundance for themselves.

Women from every country, culture, political, and religious belief system are all desiring to feel prosperous, to know abundance at the core of our lives. Prosperity (or lack thereof) is an element that can keep women stuck in abusive situations, or make us feel like we don't have the tools to support or lift ourselves up in the world.

Maybe you think that you don't have the education or skills or circumstances to be successful and prosperous? Maybe you think that life has handed you too much responsibility or impossible circumstances that serve to push you down? Maybe you feel you simply don't know how to turn things around, who to turn to, or where to go to find the support you need?

Imagine how different your life would be if you had all the resources you need. What would your life be like if every day you were:

- nourishing your body with healthy food
- exercising in pleasurable ways
- enjoying meaningful work
- living with joy and passion
- connecting with supportive community
- expressing yourself creatively
- engaging in respectful, loving relationships with family and friends

While Global Sisterhood isn't offering you a big pile of money or a quick solution to get you out of debt or poverty, we *are* offering you the inspiration, encouragement, and practical tools to begin making the small shifts--from survival to thrival--beginning in the inner sanctuary of your own mind, heart, and body.

We're also offering women resources to facilitate Sister Circles in your local communities, to bring women together to discuss and connect around these important themes. We highly encourage you to [join or start a circle in your community](#). Build your own network of abundant support with women who will celebrate your successes and surround you with love when you've forgotten your own brilliance. There is real magic in sisterhood. See and experience it for yourself.
